St. Andrew's Society—in terms of ac-
tion two, article three, of By-Laws:—
The Secretary will open a book for re-
ceiving the nominations for officers and
general committee on Saturday, the 10th
inst. No nominations received after
Saturday, Nov. 1st.

Our correspondent writing from Lag-
uen says:—I am sorry to say that sick-
ness is pretty general at the End of the
Track. Numbers of men arrive here
(Laguen) for the purpose of recruiting
their health. They report that Mountain
fever (Typhoid) and rheumatism, owing
to the continual wet weather, is preva-
lent; and that deaths are of frequent oc-
currence. Still this does not deter the in-
flux as every train from the east brings
its crowd of men, hurrying onward to
take part in the construction. As the
majority of the men are now being drawn
from the slums of the larger towns in the
United States, lawlessness is the order
of the day, and the Mounted Police have
an immense task in trying to keep order among
them.

The annual meeting of the Saskatche-
wan Cycling Club was held in McLean &
Elliot's office last Wednesday evening
for the purpose of organizing for the com-
ing season, at which there was a very
good attendance of the "knights of the
broom and stam." The financial state-
ment showed the Club to be in good
standing, considering the extra heavy ex-
pense the members were under last year.

The following gentlemen were chosen as
officers of the Club for the ensuing sea-
son:—President, Dr. Bain; Vice Presi-
dent, T. N. Campbell; Sec. Treas. W.
Napier; Chaplain, Rev. Principal Flett;
Representative members, Col. Sprat and
G. D. Northgrave; Managing committee,
Messrs. G. T. Brown, J. Sanderson, J.
Sinclair, S. C. Elliot and J. D. Mavery.

The Hon. L. Clarke and Mr. H. Mac-
dowell were elected honorary members.
Col. and Mrs. Sprat were chosen as
Patron and Patroness of the Club. It is
to be hoped the managing committee will
take immediate steps to put the Club in
shape and make the necessary improve-
ments and alterations, so that skaters
as well as rollers will be able to enjoy
themselves at their favorite pastime dur-
ing the coming winter.

ensued, four of the Italians being severely
injured.

saut on the 8th inst., and proceeded
forthwith to the frontier. Reports state
that the rebellion is increasing.

Eleven men were drowned on Lake
Michigan on the 8th inst., while working

Montreal, Sept. 25.—The Grand Trunk receipts last week show a deficit of \$21,500 compared with the same time last year.

Toronto, Sept. 25.—Septimus A. Denison was elected by acclamation to day as alderman for St. Stephens ward to fill the vacancy caused by the resignation of his brother, Major Denison, of the Nile expedition.

Over 175 men left this morning to work on the C. P. R. at the Rockies.

Hamilton, Sept. 25.—Allard's planing mill was burned this evening. Loss \$5,000, insured.

The chief attraction at the Central Fair, which opens next week, will be Dr. Curry and a troupe of Texas cowboys. Curry is very dexterous with the rifle and a dead shot. The cowboys will display their horsemanship.

Ottawa, Sept. 27.—The *Canette* announced the appointment of Dr. Codd of Winnipeg, as medical examiner under the Civil Service Act.

The Manitoba exhibit sent here to the Provincial Fair arrived late and in bad condition. It was shown in one wing of the main building. The potatoes and cabbages are very fine, and the wheat a splendid sample. The display has done a good deal to correct the erroneous impressions held here as to the fertility of Manitoba lands.

The Canada Company's price of \$100 for best fall wheat was awarded to W. H. and J. C. Smith of Fairfield Plains, Grant County.

Kenosha, Sept. 27.—The temperance people here are agitating the submission of the South Act to a vote of the ratepayers.

St. John's, Nfld., Sept. 27.—The steamer *Bristol*, from Montreal for Bristol, arrived here with her propeller broken. It was smashed by collision with ice. There are 375 ice-burys between Cape Freels and Cape Race. An average of fifteen ice-burys pass St. John's daily, going south in the track of ocean steamers. Crafts arriving at St. John's report passing large quantities of wreckage on the coast of Labrador. On Thursday fierce hurricanes were experienced. The same date, the schooner *Linette* was lost, but the crew was saved. Heavy disasters from the north are anticipated. Conception Bay appears like a miniature Polar sea, being dotted with twenty-nine large ice-burys.

NATAMBA, Sept. 27.—A son of section boss Woodman, standing near a switch at Ernestown, had both feet cut off by a freight train. He was seventeen years old.

HILLDALE, Sept. 27.—An effigy of King Doda, the anti temperance lecturer, was burned here.

MONTREAL, Sept. 27.—P. Maranda, of Cameron & Co., best manufacturers, was captured to day by Whitney, Wardlaw & Co., leather merchants.

QUEBEC, Sept. 27.—Lord Lansdowne recently donated \$2,000 to the river police, but the men only got 75 cents each. When Lord Dufferin was Governor General he gave them \$500, but the men never got a cent. The papers demand an investigation.

Judge Moussau has filed an admission of corruption by agents in the Jacques Cartier election.

AMERICAN NEWSPAPER ANNUAL

We have been favored with a copy of N. W. Ayer & Son's American Newspaper Annual for 1884, and are so pleased with it, that we cannot refrain from drawing the attention of our readers to its merits. The value of such a work to all who may at any time require to ascertain for any purpose in papers away from home will at once be recognized when it is known that the Annual contains not only the names of all new papers and periodicals published in the United States and Canada, but also their advertising rates, while the additional information as to the circulation of each paper serves as a guide to which are best adapted for the purpose. The arrangement may be noted as so perfect that not the slightest difficulty can be experienced in laying the hand on the exact information required. From the comparative statements of increase of circulation of the papers, as well as the present amount

and of the number of publications in various sections of the Continent, much general information with regard to their usual condition and general progress may be gathered, in fact for statistical results it is invaluable. When it is known that over and above all that has already been mentioned, this volume contains most useful and interesting information regarding the general features, the nature of the soil, with its adaptability to the growth of the various agricultural staples of the various localities throughout the States and Canada. Enough has been said to prove that the sum of \$3 necessary to insure its free delivery at any address, could hardly be more profitably invested. In respect of binding, leaving nothing to be desired, and we can conscientiously recommend it to all who may have any need of the varied information it contains. It may be obtained by remitting \$3 to the publishers, N. W. Ayer & Son, newspaper advertising agents, Times Building, Philadelphia.
